

WORK, HEALTH & SAFETY

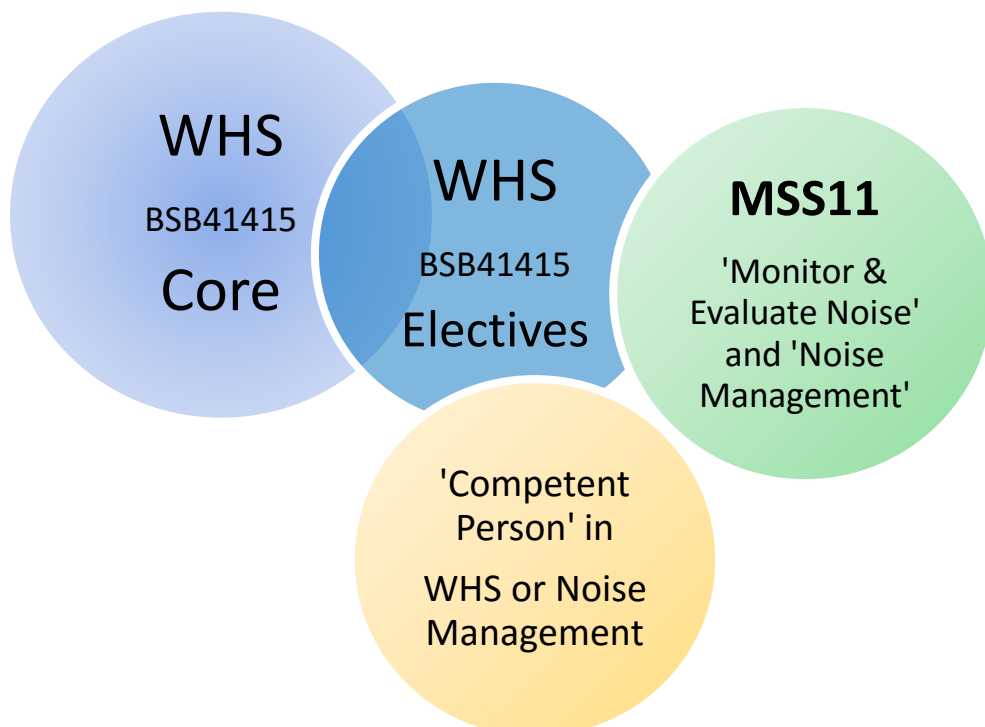

TRAINING FOR PRACTICAL PEOPLE

ARE YOU concerned about workplace health and safety?
DO YOU need staff competent in practical work, health and safety?
DO YOUR WHS Staff or Representatives need up-skilling?

**Look no further, we have the training program for
YOU!**

As a registered training organization we offer a practical and stimulating vocational training qualification in
BSB41415, Certificate IV in Work Health and Safety (WHS)

We also specialise in training for noise management.

TRAINING IN WORK, HEALTH AND SAFETY

This is a practical course for practical people and is designed to give participants relevant knowledge and skills to enable the provision of valid and timely work, health and safety advice. The course is a Certificate IV qualification under the Australian Skills Qualification Authority and covers a broad range of health and safety functions and responsibilities in the workplace including:

- Identifying hazards;
- Assessing WHS risks;
- Implementing strategies to control WHS risks;
- Evaluating an organisation's performance including audit procedures;
- Noise management.

Who should take this BSB41415 Certificate IV Certificate

- Safety officers, occupational health staff
- Health and Safety representatives
- Supervisors in construction/building, manufacturing, mining, transport and heavy industries
- Persons involved in WHS for the music entertainment industry, commercial workplaces, schools and hospitals
- Regulatory officers required to assess compliance with WHS management codes

Ten (10) units are taken to complete the Certificate.

- BSBWHS402 Assist with compliance with WHS laws
- BSBWHS403 Contribute to implementing and maintaining WHS consultation and participation processes
- BSBWHS404 Contribute to WHS hazard identification, risk assessment and risk control
- BSBWHS405 Contribute to implementing and maintaining WHS management systems
- BSBWHS406 Assist with responding to incidents
- BSBWHS409 Assist with workplace monitoring processes
- BSBCMM401 Make a presentation
- BSBMGT403 Implement continuous improvement
- BSBRSK401 Identify risk and apply risk management techniques
- BSBSUS401 Implement and monitor environmentally sustainable work practices

In addition, Acoustar offers two specialist noise management Units (MSS11) that can be studied as part of the course, either separately or in combination with the BSB units.

- MSS025008 Monitor and evaluate noise
- MSS027008 Coordinate noise management activities

For confident, competent Work, Health & Safety personnel
